The Rough Riders

The "Type Farming" meeting in the God Falence Hall Westenday morning brought out a fairty large number of farmers. The lateress shows and the sunsy questions asked Prof. Campbell show that the farmors of this country are taking a very intelligentativers in their own welfare and are looking forward to the time when the Climatic conditions will not be as favorable to the production of good cross as has been the case for the last year of love.

Major G H. Shoof's Irregular Mounted and in a short address on the general conditions of Agriculture in the Province introduced the Professor. Prof. Campbell is a man that take with his sudience rather than lectures to them. He is a pleasing speaker and inspires his heares with their date that the knowledge which he had to receive the theory of the farmer his energy and other than the transpeal in the province introduced the Professor. Prof. Campbell is a man that the knowledge which he had to the province in the province in the province in the province in the professor. Prof. Campbell is a man that the knowledge which he had to receive the things and that the knowledge which he had to receive the things and that the knowledge which he had to receive the things and the province to the farmer his heavy great the transpeal to the province in the province in the province in the province in the professor. A dealled report of Prof. Campbell is a man the province in the province in the province in the province in the professor in the province in the province in the professor in the province in the professor in the pro

E. C. Payres, Managor

In this weeks issue is a letter from connellor Teskey, who is chairman of the water, fire and light committee in reply to the letter which appeared in last weeks. Mr. Teskey defends the actions of the council in what they are doing in regard to the town's water supply and criticizes at some length the proposition put fourth by Mr. Cornwall. We welcome this discussion and

will allow anyone, who has legitimate criticisms, make use of our columns, but we must insist upon the letters published being of an Impersonal nature. Personalities below the should never enter into a discussion of this kind. The councilors are public servants and their actions a such are open to public criticism but they shall have the same privilege of the use of our columns to defentheir actions that is extended to the public to criticize. An open dis-

recent funerals have called the attention of many people to condition of the union cemetery. There is certainly room there for vast improvement. The cemetery is under the control of the town council, and as this body has more on its hands than it is able to attend to properly we would suggest that the council should hand over the control of the cometery to a Cemetery Board to be composed of one or more men elect-ad from each of the religious bodies in town.

Supreme Court

The Montalbetti Perjury Case Creats Great Interest

The Montalbetti purjery case was called promptly at 10 o'clock Friday June 14, before judge Harvey, with Wm. M. Campbell acting as Crown

prosecutor.

C. F. Harris and P. J. Nolan appeared for the defence.

The following jurors were selected:
W. Tuskey, W. Skelding, S. De-Ronzie, W. A. Lettner, D. C. Hobbs and J. A. Struthers.

All witnesses, were excluded from

All witnesses were excluded from the court room, excepting D. J. Campbell of MacLeod and B. M. Bridges Nelson, -B. C. Over twenty witnesses were in attendance

Bridges Nelson, B. C. Over twently witnesses were in attendance. Wm. M. Campbell, Crown proceeding, additional solutions of the charge against Montalbetti. The first witness called was Duncan J. Campbell, who testified that news, in 1901, a commissioner, and that the defendant had appeared before him in that year, and made a worn declaration as to improvesworp declaration as to improve-ments made on this land known now as the Blairmore townsite

now as the Blairmore townsite. C. P. Lyon was called for the prosecution. Witness said that he had ladd information against Mon-taibetti before judge Wade of Ed-monton. Judge Wade had handed the information back to him along with the warrant for the arrest of warrant to the commanding office warrant to the commanding office at the between some had carried the it the barracks and had carried th nformation paper to Bisirmore and delivered them to the judge there At this point in the testimony judge Harvey expressed his surprise that a judge would take such procedure with official papers as had been test-ified to by the witness, Mr. Lyon, of his own personal knowledge, could not say that a root house had or had been erected in 1898, by defend-He declared that Felix Monant. He declared that Felix Mon-tabletti did not keep a cow and call in 1859, but admitted that he did in 1859, but admitted that he did seep them in 1909. At not time, to his knowlege, had the defendant skept any kin of poultry. He had not built a stable and certal until the year 1909, and with the everp-tion of the root Blouse referred to. The first property of the land injustion. Mr. Harrische with the defendant while twest increbly at the hard injustion. Mr. Harrische with the defendant while twest increbly at the hard injustion. Railroad Wrecks

The public has lost all confidence—if it ever had any—in the railway companies' investigation of their own wrecks. It is not satisfied with the published information that fifty lives were blotted out because a signalman blundered here or a locomotive-runner made a mistake there. It wants to know what checks are in force here or else-Imotive-runner made a mistake there. It wants to know what what checks are in force here or elsewhere, pot rand against such bunders. It wants to know what the block signal at danger is not to be passed under any conflictions, and are privately instructed that it is permissible to take changed of thirty miles as hour or more. It wants to know whether those who travel by rall are entrasting their lives to mee who may have been working long hours and be drowey from lack of sleep when they should be alert to watch for a signal. Already it has been found that the engineer of the locomotive which telesceped the train at Tera. Cotta had had only sight hours steep in the fourty-eight hours preceding different trains at Tera. Cotta had had only sight hours a seeding different trains at Tera. Cotta had had only sight hours a seeding different trains at Tera. King Epward's Diplomacy

During the last six years Great
Britain and Germany may be said
to have changed places on far as their
positions among the Great Powers
of Europe are concerned. Six years
aged it was England that enjoyed the
aged it was England that enjoyed the
great of the great continued to the control
control among the friends two
less to the great continual powers.
Today, Germany, if not actually
in the same position of "splendid
isolation" as previously occupied by
Great Britain, can hardly be said
to stand where tid diw thit is allies
or to loon so large upon the word's
political buring, while Great Britsian now counts France, long its
radditional enemy, among its elesset
friends and Italy und splan as friendtyl in something more than the ly in something more than the cautiously diplomatic sense of the

term. The reversal of the positions of the two countries must, beyond all question, be to a very considerable extent credited to his Majesty King *** Edward. Without doing anyth that could possibly offend Germ King Edward has neverthe Edward. Without doing anything that could possibly offend Germany King Edward has nevertheless succeeded during the few years that he has reigned in making friends where previously Great Britain was either cordially disliked or eyed eakance. He has shown himself in the truest sense a great diplomation of the control of a very different school to that of Bismarck.—Ex.
